Summary

Recent graduate in Web Information Systems and Technologies (P.Porto), with hands-on experience in full-stack web and mobile development and a growing focus on AI integration (RAG, LLMs). Built **Learnly**, an AI-powered micro-learning platform, during a curricular internship at Centro de Inovação Pedagógica, P.Porto. Focused on architecture and performance, comfortable in collaborative environments, looking for opportunities as a **Software Engineer**.

Technical Skills

Programming Languages: JavaScript, TypeScript, HTML5, CSS

Frameworks & Libraries: React Native, Next.js, Vue.js, Nuxt 3, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, PostgreSQL, Supabase, Qdrant

Artificial Intelligence: Langflow, Ollama, Groq API

Development Tools: Docker, Prisma, Git, VS Code, Vercel, Expo, Postman

Experience

Full Stack Developer (Curricular Internship)

Mar 2026 – Jun 2026

Centro de Inovação Pedagógica, P.Porto

Porto, Portugal

- Curricular internship focused on developing **Learnly**, an AI-powered micro-learning platform.
- Built the student-facing interface with **Nuxt 3** on top of **Vue.js** and **TypeScript**, styled with **Tailwind CSS**, following a mobile-first approach
- Built a complete **RAG pipeline** using **Directus Flows** for orchestration and **Qdrant** as the vector database, generating flashcards automatically from PDFs via the **Groq API** (llama-3.3-70b-versatile)
- Integrated local **LLMs via Ollama** for offline/private generation, with Groq as the production fallback
- Managed backend infrastructure and **REST APIs** through **Directus**, including role-based access control (**RBAC**)

Junior Web Developer (Curricular Internship)

Feb 2023 – Jul 2023

SUBA - The Growth Agency

Porto, Portugal

- Designed and developed a **responsive landing page** from scratch using **HTML**, **CSS**, **JavaScript** and **PHP**
- Built a custom **back-office system** enabling non-technical staff to manage website content independently, without relying on direct code changes
- Customized and administered the **WordPress CMS**, adapting themes and functionality to match client requirements

IT Technician (Internship)

Sep 2020 – Jul 2021

Somani Sociedade Têxtil, S.A

Portugal

- Provided daily internal **IT support**, assisting the IT Technician with hardware and software troubleshooting across the organization
- Contributed to the implementation and refinement of internal **IT processes**, helping ensure smooth and efficient day-to-day operations

Education

Instituto Politécnico do Porto (ESMAD)

Porto, Portugal

Bachelor's in Web Information Systems and Technologies

Sep 2023 – Jul 2026

Instituto Politécnico do Porto (ESMAD)

Porto, Portugal

Higher Professional Technical Course in Design and Technologies for Mobile Applications (CTeSP) Oct 2021 – Jul 2023

Projects

CV Builder | Next.js, TypeScript, Supabase, Groq API, Mistral OCR, Vercel

Oct 2025 – May 2026

- Full-stack **AI-powered CV creation and optimization platform**, built from scratch on free-tier infrastructure
- Step-by-step CV creation wizard with **PDF export**
- **AI Review** feature that scores CVs against ATS parsing criteria and suggests concrete improvements

- **Job Match** tool that tailors a CV to a specific job posting without fabricating information
- **Career Copilot**, generating a personalized career development plan
- **Interview Prep** module with mock interview simulation and per-answer feedback

HabTracker | *React Native, Expo, Node.js, Express, MongoDB, TypeScript*

Jun 2025 – Present

- **Cross-platform habit tracking** mobile app with a custom REST API
- Built a **gamified user experience** with XP, levels, achievements and visual rewards to drive engagement
- Developed a **REST API** using Node.js and Express, backed by MongoDB
