SUMMARY

Software Engineer building full-stack web applications with **JavaScript** and **TypeScript** (Next.js, Nuxt 3, Node.js) and, more recently, **Java** with **Spring Boot** and **Angular**. I'm drawn to backend architecture and AI integration, from RAG pipelines to LLM orchestration.

Recent graduate in Web Information Systems and Technologies (P.Porto, 2026), looking for an opportunity to enter the job market as a **Software Engineer**, where I can go deep on backend and full-stack systems and keep growing into AI-integrated products.

TECHNICAL SKILLS

Backend: Java, Spring Boot, Node.js, Express.js

Frontend: Angular, React, Next.js, TypeScript, Vue.js, Tailwind CSS

APIs: REST APIs, integration and consumption

Databases: PostgreSQL, MongoDB, Firebase, Supabase, Qdrant

Artificial Intelligence: Langflow, Ollama, Groq API

Tools: Docker, Prisma, Git, VS Code, Vercel, Expo, Postman

EXPERIENCE

Full Stack Developer (Curricular Internship)

Centro de Inovação Pedagógica, P.Porto

Mar 2026 – Jun 2026

Porto, Portugal

- Curricular internship focused on developing **Learnly**, an AI-powered micro-learning platform
- Built the mobile-first interface with **Nuxt 3**, **Vue.js**, **TypeScript** and **Tailwind CSS**, and managed data, **REST APIs** and role-based access control (**RBAC**) with Directus
- Implemented a **RAG pipeline** with Langflow and **Qdrant**, automatically generating flashcards from PDFs with **LLMs** via Ollama (Groq in production)

Junior Web Developer (Curricular Internship)

SUBA - The Growth Agency

Feb 2023 – Jul 2023

Porto, Portugal

- Developed an **e-commerce** website using **Shopify**
- Customized and administered the **WordPress CMS**, adapting themes and functionality to match client requirements
- Built a custom **back-office system** so non-technical staff could manage website content independently

IT Technician (Internship)

Somani Sociedade Têxtil, S.A

Sep 2020 – Jul 2021

Portugal

- Provided daily internal **IT support**, assisting with hardware and software troubleshooting across the organization
- Contributed to the implementation and refinement of internal **IT processes**

EDUCATION

Instituto Politécnico do Porto (ESMAD)

Bachelor's in Web Information Systems and Technologies

Porto, Portugal

Sep 2023 – Jul 2026

Instituto Politécnico do Porto (ESMAD)

Higher Professional Technical Course in Design and Technologies for Mobile Applications

Porto, Portugal

Oct 2021 – Jul 2023

PROJECTS

CV Builder | Next.js, TypeScript, Firebase, Groq API, Mistral OCR, Vercel

Oct 2025 – May 2026

- Full-stack **AI-powered CV creation and optimization platform**, with ATS scoring and PDF export
- Implemented rate limiting, caching and load testing, scoring 99/100 on Lighthouse

Invoicing & Expense Management System | Java, Spring Boot, Angular, PostgreSQL, Docker

2026

- Full-stack **invoicing and expense management system** with a **Spring Boot REST API**, an **Angular** frontend and JWT authentication, started with a single Docker command
- Gapless sequential invoice numbering **under concurrency**, using pessimistic and optimistic locking, validated by an integration test with 20 simultaneous requests on a real PostgreSQL database
